

TOMASZ D. MAZGAJSKI

SPIS NAJWAŻNIEJSZYCH PUBLIKACJI

DZIĘCIOŁY

Mazgajski T.D. 1998. Nest-site characteristic of Great Spotted Woodpecker *Dendrocopos major* in Central Poland. *Polish Journal of Ecology* 46: 33–41.

Mazgajski T.D. 2002. Nesting phenology and breeding success in Great Spotted Woodpecker *Picoides major* near Warsaw (Central Poland). *Acta Ornithologica* 37: 1–5.

Mazgajski T.D. 2002. Does the Great Spotted Woodpecker *Dendrocopos major* select holes for roosting? *Polish Journal of Ecology* 50: 99–103.

Mazgajski T.D. 2003. Nesting interaction between woodpeckers and starlings – delayed commensalism, competition for nest sites or cavity kleptoparasitism? W: Pechacek P., D'Oleire-Oltmanns W. (eds). International Woodpecker Symposium. Proceedings. Forschungsbericht 48, Nationalparkverwaltung Berchtesgaden. pp.133–138.

Woźniak A., **Mazgajski T.D.** 2003. Division of parental labour in the Great Spotted Woodpecker. W: Pechacek P., D'Oleire-Oltmanns W. (eds). International Woodpecker Symposium. Proceedings. Forschungsbericht 48, Nationalparkverwaltung Berchtesgaden. pp: 173–178.

Mazgajski T.D., Rejt Ł. 2006. The effect of forest patch size on the breeding biology of the great spotted woodpecker *Dendrocopos major*. *Annales Zoologici Fennici* 43: 211–220.

McDevitt A. D., Kajtoch Ł., **Mazgajski T.D.**, Carden R. F., Coscia I., Osthoff C., Coombes R.H., Wilson F. 2011. The origins of Great Spotted Woodpeckers *Dendrocopos major* colonizing Ireland revealed by mitochondrial DNA. *Bird Study*: 58: 361–364.

Michalczyk J., McDevitt A. D., **Mazgajski T.D.**, Figarski T., Ilieva M., Bujoczek M., Malczyk P., Kajtoch Ł. 2014. Tests of multiple molecular markers for the identification of Great Spotted and Syrian Woodpeckers and their hybrids. *Journal of Ornithology* 155: 591–600.

Pons J.-M., Campión D., Chiozzi G., Ettwein A., Grangé J.-L., Kajtoch Ł., **Mazgajski T.D.**, Rakovic M., Winkler H., Fuchs J. 2021. Phylogeography of a widespread Palaearctic forest bird species: The White-backed Woodpecker (Aves, Picidae). *Zoologica Scripta* 50: 155–172.

DZIUPŁAKI WTORNE

Mazgajski T.D. 2003. Nest site choice in relation to the presence of old nests and cavity depth in the starling *Sturnus vulgaris*. *Ethology, Ecology & Evolution* 15: 273–281.

Mazgajski T.D., Kędra A.H., Beal K.G. 2004. The pattern of nest-site clearing by European Starling *Sturnus vulgaris*. *Ibis* 146: 175–177.

Mazgajski T.D. 2007. Effect of old nest material on nest site selection and breeding parameters in secondary hole nesters – a review. *Acta Ornithologica* 42: 1–14.

Mazgajski T.D. 2007. Nest hole age decreases nest site attractiveness for the European Starling *Sturnus vulgaris*. *Ornis Fennica* 84: 32–38.

Mazgajski T.D., Rykowska Z. 2008. Dependence of nest mass on nest hole depth in the Great Tit *Parus major*. *Acta Ornithologica* 43: 49–55.

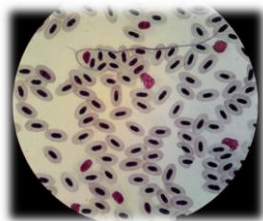

Lambrechts M.M., Adriaensen F., Ardia D.R., Artemyev A.V., (...), **Mazgajski T.D.**, (...). 2010. The design of artificial nestboxes for the study of secondary hole-nesting birds: a review of methodological inconsistencies and potential biases. *Acta Ornithologica* 45: 1–26.

Dubiec A., **Mazgajski T.D.** 2013. Nest mass variation over the nesting cycle in the Pied Flycatcher (*Ficedula hypoleuca*). *Avian Biology Research* 6: 127–132.
